

RIMAGE FORENSIC SOFTWARE

Automate Optical Disc Forensics

Working with industry leaders in the forensics field, Rimage's Forensic Software will forever change the way CD, DVD and Blu-ray Disc™ evidence is processed.

Integrating with the Rimage Evidence Disc System®, Rimage Forensic Software enables automatic ingestion and report generation for optical disc evidence, helping global law enforcement agencies prevent evidence backlogs from outgrowing examination capabilities and bogging down the entire department.

Benefits

Reduced lab time

Turn examinations into quick operations and decrease disc-based evidence processing by 80% with a fully-automated system.

Intuitive interface

Designed for the experienced investigator and newly trained examiner alike, the graphic interface is powerful yet easy to use.

Increased accuracy

Gather and analyze content from hundreds of hard-to-read or even damaged discs, regardless of defects and bad disc sectors.

Features

- Integration with Evidence Disc System (EDS) 5410N and 8200N systems, including Everest® thermal retransfer print technology and a high-resolution camera
- Disc imaging and output options including .EO1 (EWF compatible), .ISO, .ZIP and .ISO + .CUE (FTK Compatible)
- Case Summary Report for quick statistics included on each batch of evidence
- Advanced processing for hard-to-read and damaged discs
- Disc Detail Report shows the file/folder contents of each disc
- Image thumbnails for quick picture previewing
- MD-5 and SHA1 file hashing

Maximized productivity

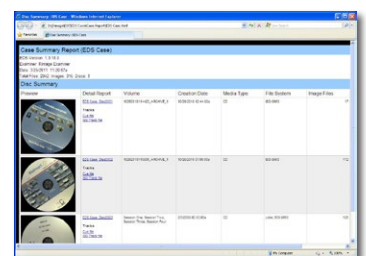

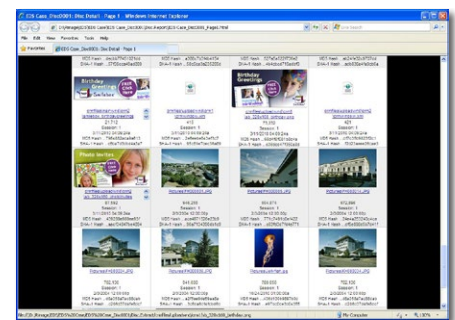

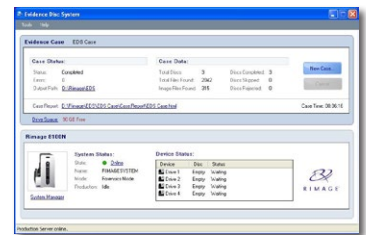

Ingest, publish and archive digital evidence all from one hands-free system and eliminate manual procedures.

Court-ready export

Maintain the evidentiary link between extracted content and physical media with a photographed image of each disc.

Disc-centric solution

Use high-quality CD/DVD/Blu-ray Disc media to permanently archive and distribute evidence on one secure and standardized format.

Forensic Software

Works with

- EDS 5410N
- EDS 8200N

SUPPORTED RIMAGE PLATFORMS

Producer	EDS 8200N w/ Everest 600 printer and high-resolution camera
Professional	EDS 5410N w/ integrated Everest 400 printer and high-resolution camera

We Recommend

Rimage Maintenance Agreements

Maximize your ROI and minimize downtime when quick problem resolution is a must. With our range of skilled technicians and industry-leading support services, Rimage has a maintenance plan that meets your needs.

Rimage Media Kits

Get reliable, uninterrupted performance from your Evidence Disc System. With optimized print ribbons and discs, Media Kits give you the best-looking, longest-lasting results in one convenient and affordable package.

Rimage Forensic Software works with EDS 8200N and EDS 5410N systems
